

Job Title	Operative – Technology Engineer
Reporting to	Technical Operations Manager
Depot	Podington, Northamptonshire

THE ROLE

You will be carrying out Traffic, Street Lighting and Technology Installation works and be at the forefront of onsite delivery. You will be required to work safely and to a high quality. Showing a high level of understanding of working upon high-speed roads, traffic signs, highway lighting and/or highway technology, associated civils works. Whilst you will work on predominantly technology works you will be cross trained to ensure you can be involved in all types of civils activities as required.

The Podington depot will be your “base”, but the role will require you to be based on National sites for works carried out.

A TYPICAL WEEK MIGHT INVOLVE

- Installing and commissioning motorway communication equipment to Highways Agency standards (MCX suite of drawings)
- Installing Traffic Signals Equipment in line with design and TR2500 specifications
- Performing electrical tests to BS7671 and digitally complete all relevant documentation and commissioning sheets as per MSF processes
- Conducting Cable locating using cable detection equipment
- Work with MSF Civils team in the delivery of the works
- Able to undertake manual work including manual trenching cable laying etc.
- Ensure all installations are completed to the correct standard, delivered on time and to budget.
- Completing relevant documentation and paperwork
- Maintain a high level of health and safety as per company policies/procedures
 - Ensure all works are completed as per MSF QEHS policies and procedures
 - Report and QEHS issues to supervisor and via Eyes and Ears App

As a rapidly growing business, no two days are ever the same so what you do will vary. The nature of our business and the pace we move at also means that priorities do change, and you will need to be comfortable with this. As a growing Business stream within MSF the NIO will be instrumental in formulating delivery plans and processes.

QUALIFICATIONS

- C+G 2382 or equivalent
- G39 qualified
- National Highways Sector Scheme 8 accredited
- B/TEC Ordinary National Certificate in electronics/telecommunications engineering (or an equivalent qualification) OR be able to demonstrate proven work experience and therefore

extensive knowledge and competence working on motorway communications, traffic signal or closely related equipment/systems.

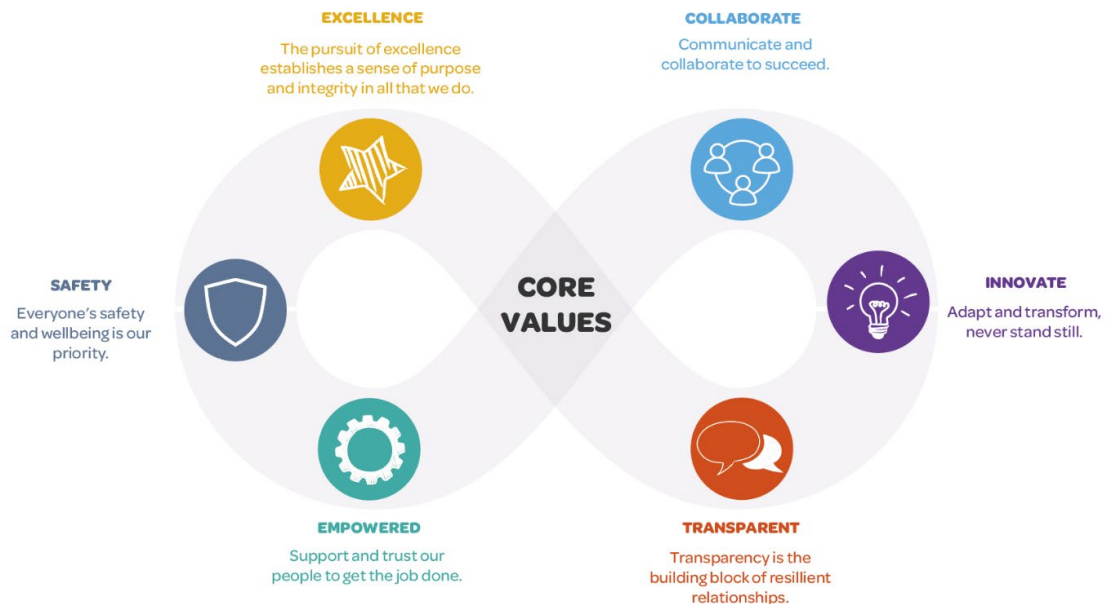

APPLY IF YOU ARE

- A collaborative worker – involving various teams in the delivery of your tasks
- Can undertake manual work including manual trenching cable laying etc.
- Happy working away and working nights if needed
- Can ensure all installations are completed to the correct standard, delivered on time and to budget.
- Is prepared to positively participate in all training relevant to the position
- Will maintain a high level of health and safety as per company policies/procedures
 - Ensuring all works are completed as per MSF HSEQ policies and procedures
 - Reporting any HSEQ issues to supervisor and via Eyes and Ears App
- Is PC literate to a basic level in Microsoft Office including Word, Excel, and Outlook

WHY US?

We are a growing business, and we are doing big and exciting things. We are looking for likeminded people who want to grow with us and be part of our journey and in return we offer a collaborative working environment where we encourage and support continuous improvement and career development.

Our values underpin how we work and act and are crucial to our ongoing success.
